PRODUCT(S)

WRAPSHIELD SA[®] SELF-ADHERED Water Resistive Vapor Permeable Air Barrier Sheet

PROJECT DESCRIPTION

VaproShield donated over 3,200 sq.ft. of WrapShield SA Self-Adhered Water Resistive Vapor Permeable Air Barrier Sheet which was used on the Living Lands & Waters new floating classroom.

The barge not only includes passenger and classroom space but also has living quarters. The organization has hosted groups of teachers for many years to learn about the river, but now they can bring their students.

The Living Lands and Waters' mission is to aid in the protection, preservation and restoration of the natural environment of the nation's major rivers and their watersheds. The organization has spent many years cleaning up the waterways of the Mississippi and other major rivers in the US.

The project was complete in the summer of 2011.

VaproShield donates thousands of square feet of membrane each year as part of their ongoing commitment to sustainable business practices. VaproShield measures success by designing and providing products that create and promote high-performance building envelopes, ensuring a healthy environment for all occupants while reducing overall building and operating costs.

The classroom on a barge not only includes passenger and classroom space but also has living quarters.

VaproShield donated over 3,200 sq.ft. of WrapShield SA Self-Adhered.

VaproShield promotes sustainable practices that support a strong economic base, environmental responsibility and respect for the community.
