Hemmler & Camayd Architects
409 Lackawanna Ave #400
Scranton, Pennsylvania 18503

PRODUCT(S)

WRAPSHIELD SA[®] SELF-ADHERED Water Resistive Vapor Permeable Air Barrier Sheet Membrane

PROJECT DESCRIPTION

The Bear Creek Community Charter School in Bear Creek Village, Pennsylvania was installed with roughly over 30,000 sq. ft. of WrapShield SA Self-Adhered Water Resistive Vapor Permeable Air Barrier Membrane, which was adhered to Dow Thermax™ Foil Faced Polyiso Sheathing.

Even since the project's inception in January 2015, WrapShield SA Self-Adhered proved to withstand exposure to nature's harshest elements well into the spring season without faltering.

VaproShield's contributions to the making of this education center is an excellent example of how our product performance can persevere even below freezing weather conditions under the most aggressive project schedules.

The Bear Creek Community Charter School in Pennsylvania was installed with roughly over 30,000 sq. ft. of WrapShield SA Self-Adhered Water Resistive Vapor Permeable Air Barrier Membrane, which was adhered to Dow Thermax™ Foil Faced Polyiso Sheathing.

VaproShield's WrapShield SA Self-Adhered outperforms its competitors in that it can persevere even below freezing temperatures under the most aggressive project schedules.
