PRODUCT(S)

WRAPSHIELD® Water Resistive Vapor Permeable
Air Barrier Membrane
VaproFlashing
VaproLiquiFlash

PROJECT DESCRIPTION

Approximately 3,000 sq.ft. of WrapShield Water Resistive Vapor Permeable Air Barrier Membrane was installed over plywood on this private residence in Halifax, Nova Scotia. VaproFlashing and VaproLiqui-Flash were used on all window and door openings reducing installation time and ensuring breathable but air-tight seals. .

The contractor had been searching for a product suitable for this wet, windy environment. He learned that VaproShield products had been used on a similar home just south of Halifax on the coast and contacted Keel Architectural Products for more information.

WrapShield was chosen because it offers:

- Integrated Tape at Horizontal Seams
- Secondary Rain Barrier
- Zero VOC's, (no off-gassing)
- Low Temperature Applications
- Fire Rated, Class A to ASTM E 84
- 6 Months UV & Climate Exposure
- High Temperature Resistance
- Tough, Durable, Tear Resistant
- Cinches around fasteners
- Contributes to LEED points

Over 3,000 sq.ft. of WrapShield Water Resistive Vapor Permeable Air Barrier Membrane was installed over plywood.

VaproFlashing and VaproLiqui-Flash were used on all window and door openings reducing installation time and ensuring breathable but air-tight seals.
