**PRODUCT(S)**

**WRAPSHIELD SA**<sup>®</sup> SELF-ADHERED Water Resistive Vapor Permeable Air Barrier Sheet Membrane

**PROJECT DESCRIPTION**

Over 20,000 sq.ft. of WrapShield SA Self Adhered Water Resistive Vapor Permeable Air Barrier Sheet Membrane was installed over Hunter XCI Ply on the renovation of the Hamel Recreation Center on the campus of University of New Hampshire.

Free of harmful VOCs and entirely self adhering (no primers required) contractors successfully installed WrapShield SA Self-Adhered without jeopardizing pedestrian safety or damaging surrounding structures.

The project will include features like increased fitness space, a one-tenths mile suspended track, wellness space, instructional kitchen and a large multi-activity court. The \$35M renovation of the 85,000 sq.ft. recreation center will be completed and reopened for the fall 2016 semester.

*WrapShield SA Self-Adhered (orange) was installed on the renovation of the Hamel Recreation Center at the University of New Hampshire.*

*WrapShield SA Self-Adhered was chosen because its free of harmful VOCs and no primer is required, making it safe to install on campus.*
