Resistive Vapor Permeable Air Barrier
Membrane**

PROJECT DESCRIPTION

Over 16,000 sq.ft. of WrapShield SA Self-Adhered was applied directly to the Thermax™ Sheathing. VaproShield was the sole supplier of WRB/Air Barriers for the project, featuring multiple cladding types including metal panels and brick, saving time and money.

WrapShield SA Self-Adhered does not require substrate preparation, tapes or primers, reducing labor costs by at least 20%. In addition, common hand tools are used for installation, eliminating the need for expensive equipment and additional mobilizations.

Over 16,000 sq.ft. of WrapShield SA Self-Adhered was installed on Horry Georgetown Technical College.

VaproShield was the sole supplier of WRB/Air Barriers for the project featuring multiple cladding types including open joint metal panels and brick.
