PRODUCT(S)

WRAPSHIELD® SA Self-Adhered Water Resistive Vapor Permeable Air Barrier Sheet
VAPROLIQUI-FLASH™ Vapor Permeable Liquid Applied Flashing
VAPROFLASHING™

PROJECT DESCRIPTION

Approximately 10,500 sq. ft. of WrapShield SA Self-Adhered Water Resistive Vapor Permeable Air Barrier Sheet membrane was installed at the Audi Dealership located in Mentor, Ohio. VaproFlashing Self-Adhered SA and VaproLiqui-Flash were installed over the facility's window and door rough openings to provide durable protection to the building envelope.

Given its multiple substrate compatibility, WrapShield SA Self-Adhered was easily installed over CDX plywood. The lightweight, vapor permeable air barrier membrane is tear, rip and puncture resistant making it an effective and reliable addition to all construction projects.

WrapShield SA Self-Adhered installed easily. The fully self-adhering product does not require a primer and was installed with zero air bubbles or wrinkles. WrapShield SA Self-Adhered provided a snug fit while still allowing vapor condensation to escape the building envelope. This innovative membrane prevents mold, mildew and rot from forming to ensure building longevity and good indoor air quality for building occupants.

Over 10,500 sq. ft. of WrapShield SA Self-Adhered is installed on the Audi Dealership of Mentor, Ohio.

WrapShield SA Self-Adhered does not require a primer and is entirely self-adhering for quick and easy installation. WrapShield SA Self-Adhered makes the perfect addition to time sensitive construction projects where durability cannot be compromised for ease of installation.

Offering multiple substrate compatibility, WrapShield SA Self-Adhered was installed over CDX plywood.
