VAPRO SHIELD®
Breathable Membrane Systems for Roofs & Walls
www.VaproShield.com

Membrane patched from misplaced penetration.

VaproBond is applied to top and sides of membrane patch.

Flanges and fasteners should be completely covered with VaproBond

Minimum 1" of VaproBond onto flange or pipe penetration
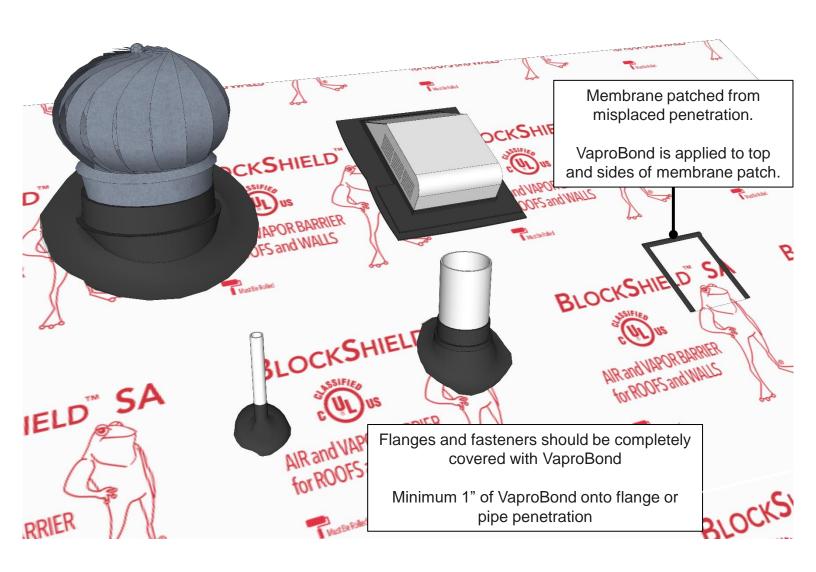

For all penetrations: tool VaproBond evenly AT LEAST 2" onto the face and AT LEAST 1" out along all sides of the penetration

VAPROBOND™

PRODUCT DESCRIPTION

VaproBond™ is a single component 100% silicone adhesive sealant used to bind layers of VaproShield membranes to each other or typical construction material surfaces. It simplifies the process of producing watertight, airtight details.
