

Project Profile

Private Residence Cobblestone Court, Bloomfield Hills, MI

With stunning blue skies as the backdrop, this home, located in Bloomfield Hills, MI, was custom built utilizing WrapShield SA Self-Adhered air barrier membrane - WrapShield SA's high drying capacity allows moisture vapor to diffuse mitigating the risk of mold and structural damage while simultaneously resisting air infiltration offering the owner energy savings for the life of the home. The owner also opted for WrapShield SA because it contains no red list chemicals, aligning with his eco-conscious values.

With its ability to fully bond without primer and be installed in any season, the installation of WrapShield SA ran smoothly amid Michigan's ever-changing seasons.
