

Speedy Factory Installation

WrapShield SA Self-Adhered WRB/Air Barrier

WrapShield SA Self-Adhered water resistive (WRB), vapor permeable air barrier sheet membrane ideally suited for modular and panelized factory installation.

- Increase profitability by adding WRB/Air Barrier to modular/panelized components, eliminates need for WRB/Air Barrier field installation
- Fast in-plant installation, zero VOC's, no primer, easily cut-to-size, keeps factory lines moving
- Easy to apply, reposition within 30 minutes 100% self-adhered membrane, minimal crew training
- Fully tested flashing accessories for rough openings ease glazing and cladding field installation
- Meets/Exceeds all relevant codes for WRB/Air Barriers

Contact VaproShield's Technical Team for an expert detail review and practical sequencing recommendations

Requires no substrate joint reinforcement or screw hole taping, and bridges gaps up to 7/8".

Air tight and breathable, saving energy and protecting the building envelope

Supports healthy building performance, contains zero red list chemicals
