CALL DR. FROG AND ELIMINATE VOCs

The recent article published in 'D+D's In Depth' explores the effects of VOC's on indoor air quality.

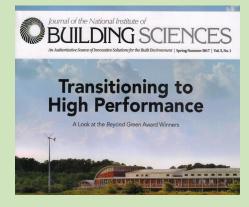

The author notes that "as building's become more tightly sealed for energy efficiency, indoor air quality is even more affected by VOCs ... " from building materials such as "primers, flooring and even formaldehyde-emitting OSB."

RBBITRE

Innovative Building Envelope News

VaproShield membranes are VOC and Red-List chemical free, plus they help to combat "sick building syndrome' by allowing your building to breathe-even when tightly sealed-like Gortex for buildings.

VAPRONEWS - AWARD WINNING WRB/AIR BARRIER SOLUTIONS EARN CONTINUOUS RECOGNITION

Country Club Towers II

A SlopeShield SA Self-Adhered Project was featured alongside VaproShield's Two Component System in the Spring 2017 issue of the Journal of National Institute of Building Sciences. Both were recognized as 'High-performing.'

In addition to being featured in the Journal, both won awards this January at the Beyond Green Awards. The top prize of the Beyond Green Awards, The Honor Award, went to Chesapeake Bay Foundation's Brock Center, which used VaproShield's SlopeShield SA Self-Adhered on its LEED Platinum Building.

RIBBIT TIDBITS

On the Move in Mexico Visit our website to see more projects that showcase how VaproShield membranes perform when applied directly to a concrete substrate.

HAVE A QUESTION? WANT A SAMPLE?

We are here to make your WRB/Air Barrier installation more cost effective, simpler and less dependent on weather constraints. Visit vaproshield.com/home/newsletter-sign-up to join our mailing list.
