**VAPROBOND**<sup>™</sup>

**PRODUCT DESCRIPTION**  
VaproBond<sup>™</sup> is a single component 100% silicone adhesive sealant used to bind layers of VaproShield membranes to each other or typical construction material surfaces. It simplifies the process of producing watertight, airtight details.

**DISCLAIMER**

Detail sketch is generic, representing suggested best practices for VaproShield materials, and does not represent a specific job site condition and therefore may not be applicable to certain projects. Detail sketch is designed for use as a reference and must be approved by the designer/ consultant of record for each project prior to installation by the subcontractor. Changes and approvals of VaproShield details are the sole responsibility of the designer/consultant of record. VaproShield is **not** the designer of record for building enclosure details and takes no responsibility for the accuracy or interpretation of actual project site conditions.
