PRODUCT(S)

WRAPSHIELD SA® SELF-ADHERED Water Resistive Vapor Permeable Air Barrier Sheet

PROJECT DESCRIPTION

Over 48,000 sq. ft. of WrapShield SA Self-Adhered Water Resistive Vapor Permeable Air Barrier Sheet was installed on the Waterfront Station commercial center in Whitehorse, Yukon. A new construction, the community development features condominiums and multi-use retail office units. Contributors will include: Earl's Restaurant, First Nations Bank of Canada, Starbucks, Superstore & Wal-Mart.

Waterfront Station marries state-of-the-art architectural elements with the natural splendor of the Yukon Territory. WrapShield SA Self-Adhered employs air barrier technology to reduce building energy consumption making the membrane an ideal addition to this nature-inspired project.

Allowing for all climate construction from -17°C to 49°C degrees, durable, tear resistant WrapShield SA Self-Adhered faced the variant Yukon weather without incident.

Over 48,000 sq. ft. of WrapShield SA Self-Adhered Water Resistive Vapor Permeable Air Barrier Sheet was installed on the Waterfront Station commercial center in Whitehorse, Yukon. All photos courtesy of Mary Ellen Read.

Designed for extreme weather installation, WrapShield SA Self-Adhered made an ideal choice for Waterfront Station located in the wintry Yukon Territory.
