

Project Profile

Mewata Armoury | Calgary, Alberta

The Mewata Armoury, located in Calgary, Alberta, Canada, stands as a testament to both history and modern construction technology. Originally built in 1915, this iconic structure recently underwent a significant renovation, including a new slate roof.

Over 20,000 sq. ft. of SlopeShield Plus SA will provide a superior barrier against moisture infiltration, and help to ensure the longevity of the slate roofing system. With SlopeShield Plus SA, the Mewata Armoury continues to stand proudly, seamlessly blending its rich heritage with modern construction solutions, and preserving its legacy for generations to come.
