**PRODUCT(S)**

**WALLSHIELD**<sup>®</sup> Water-Resistive Barrier Sheet

**WRAPSHIELD**<sup>®</sup> BLACK Water Resistive Vapor Permeable Air Barrier Membrane

**PROJECT DESCRIPTION**

Over 20,000 sq. ft. of WallShield Water Resistive Barrier Sheet was installed on Covenant House in Anchorage, Alaska. A second layer of WrapShield Black was used along the open joints providing a black reveal and long-term UV protection.

RIM Architects has successfully used VaproShield products on many projects and is extremely satisfied with the envelope protection it provides.

The open joint rain screen siding system demands a high-end weather barrier behind it that is breathable enough to allow any consequential moisture in the wall system to breath out.

WallShield also offers:

- Secondary Rain Barrier
- Zero VOC's, (no off-gassing)
- Low Temperature Applications
- Fire Rated, Class A to ASTM E 84
- 6 Months UV & Climate Exposure
- High Temperature Resistance
- Tough, Durable, Tear Resistant
- Cinches around Fasteners
- Contributes to LEED points

Over 20,000 sq. ft. of WallShield Water Resistive Barrier Sheet was installed on the Covenant House in Alaska.

Strips of WrapShield Black Water Resistive Vapor Permeable Air Barrier Membrane was used at the open joints.

WallShield and WrapShield Black offer UV protection and temperature resistance during installation.
