PRODUCT(S)

REVEALSHIELD[®] UV Stable Water Resistive Vapor Permeable Air Barrier Membrane

PROJECT DESCRIPTION

Located in the Galena Street Neighborhood near Aspen Mountain, the Durant Condominiums features 15,000 sq. ft. of RevealShield UV Stable Water Resistive Vapor Permeable Air Barrier Membrane to protect their ski-friendly, mountainous condominiums. To protect the four separate buildings, RevealShield was used with Swisspearl[®] Cladding and DensGlass[®] Gold Sheathing. RevealShield can withstand, and be installed in, all-climate weather conditions, making it an excellent choice for a construction in the Rocky Mountains.

REVEALSHIELD[®] offers:

- Use with Open Joint Cladding Systems
- UV Stable according to AC 38, Section 4.1.2
- Single Layer Installation
- Integrated Tape at Horizontal Seams
- Use with joints up to 2" wide
- Maximum 40% total open wall area
- Low Temperature Applications
- Fire Rated, Class A to ASTM E 84
- Contributes to LEED points
- Zero VOC's

Over 15,000 sq. ft. of RevealShield UV Stable Water Resistive Vapor Permeable Air Barrier Membrane was installed on Durant Condominiums in Aspen, Colorado.

Tear, rip, and puncture resistant during and after construction, RevealShield reduces the need for repairs and additional labor costs.
