PRODUCT(S)

WRAPSHIELD Water Resistive Vapor Permeable Air Barrier Sheet

WRAPSHIELD SA[®] Self-Adhered Water Resistive Vapor Permeable Air Barrier Sheet

VAPROLIQUI-FLASH[™] Vapor Permeable Liquid Applied Flashing

PROJECT DESCRIPTION

Over 4,000 sq. ft. (371 M²) of WrapShield and WrapShield SA Self-Adhered Air Barrier was installed on this private residence located in Langley, British Columbia. VaproLiqui-Flash liquid applied waterproof flashing material was applied around the project's window and door rough in conjunction with WrapShield and WrapShield SA Self-Adhered Air Barriers allowing the building envelope to release vapor and resist lateral air movement.

Over 4,000 sq. ft. (1,219 M²) of WrapShield and WrapShield SA Self-Adhered Air Barrier is installed on a private residence in Langley, British Columbia.

(above) VaproLiqui-Flash (gray) liquid applied waterproof flashing material is applied around the rough opening of a window.
