VAPROSILLSAVER
DOW CORNING 758

PROJECT DESCRIPTION

Over 280,000 sq. ft. of WrapShield Water Resistive Vapor Permeable Air Barrier Sheet was installed on the True North apartment complex located in Seattle, Washington.

The 286 unit True North apartment complex also houses a 225 stall parking garage and 4,999 sq. ft. of retail space. In close proximity to Seattle's central Business District, Lake Union, Seattle Center and the University of Washington, True North is ideal for tenants looking to experience the city's diverse cultural offerings.

WrapShield helps to protect the True North apartment complex's delicate building envelope by reducing moisture intrusion and preventing mold, mildew and rot. The building is further secured using VaproFlashing and VaproTape on all rough openings. VaproSillSavers were applied to all window sills to provide added protection against water damage.

Over 280,000 sq. ft. of WrapShield Water Resistive, Vapor Permeable Air Barrier Sheet was installed on the True North apartment complex located in Seattle, Washington.
